RM3	32" X 39" (2" DEEP)	178.00

◀ **OVADINE IODINE** FW SW

This product is a buffered, FDA-registered fish egg disinfectant that works well when applied to the egg surface of salmonids. It is effective against a wide variety of fungi, viruses and bacteria. Sodium thiosulfate (ST1/ST1A) can be used to neutralize iodine disinfectants.

MODEL	SHIP WT	EACH	4+
ID10	1 GALLON 11LBS	\$39.00	\$35.49

Ovadine® is a registered trademark of Western Chemical, Inc.

AQUALIFE MULTIPURPOSE CLEANER

A high-quality cleaner designed for use in fish hatcheries, aquaculture facilities and fish and food processing plants. Quickly loosens organic soiling, allowing easy removal of biofilm, grease, oils, waste and more. Biodegradable, nonhazardous, phosphate-free and contains no volatile organic compounds (VOCs). NSF-certified for use in food processing facilities. Super concentrated—dilute up to 20 times!

MODEL		EACH
AQU128	1 GALLON	\$25.00

◀ **AQUATIC DISINFECTANT**

FW SW ★ TECH FAV

This is a concentrated disinfectant powder that when mixed with water forms a powerful cleaning and disinfecting solution with efficacy against fish viruses, bacteria, fungi, and molds. This product is EPA registered (except in California where registration is pending) for the disinfection of environmental surfaces associated with aquaculture including vehicles (boats, trailers, autos, etc.), nets, boots, footbaths, waders, dive suits, hoses, brushes, hard surfaces and other similar equipment. Fast acting (10 mins. max. contact time), colorless, fragrance free and non-irritating to skin and eyes, which makes it the ultimate disinfectant for use in aquatic applications.

Mix at a rate of 1.3 ounces per gallon of water. One gallon of solution treats 135 sq.ft.; 10-lb container makes 123 gallons of solution. Solution remains stable for seven days. The actual solution life can vary and will be reduced by exposure to organics and UV light.

MODEL		EACH	4+
VKS10	10-LB CONTAINER	\$91.52	\$80.54

MANUAL SIPHON PUMP FW SW

A great way to safely transfer gasoline, diesel fuel, water, etc. Made of high-impact plastic, this pump functions as a high-volume siphon or regular lift pump.

Comes equipped with a 6' piece of 7/16" I.D. inlet hose and 3' of outlet. Pump is only 9" long and 1 1/4" in diameter. Use it to start a siphon, leave it unattended to empty the vessel, then use it again as a pump to remove the remainder. Made in USA.

MODEL	EACH
SP9	\$60.79

GRAVEL VACUUM

The Python Products No Spill Clean 'N Fill system simplifies water changes and tank maintenance. It connects to most water faucets for use with aquariums, ponds, bioassay tanks and small recirculating systems. The unique faucet pump enables the siphoning of water efficiently without spills. Unlike garden hoses, the Python system uses UV-stabilized tubing, which eliminates the possibility of adding hose-borne toxins to fish tanks. Each Python system is completely assembled, ready to use and includes hose, 10" gravel tube, hose connectors, switch, faucet pump and faucet adapters. Made in USA.

MAGI-KLEAN PUMP AND ACCESSORY CLEANER

Safely removes lime/calcium deposits in 3 simple steps. Can be used anywhere where deposits have formed, including pumps, skimmers, heaters, filters and pipeworks. Removes even the toughest deposits simply and efficiently. Suitable for decalcifying any piece of equipment that can be removed from the aquarium. Includes three single-dose pouches; each creates 1/2 gallon of soaking solution.

AG4A

ALGAE PADS

These handheld algae pads are ideal for removing unsightly algae from tanks, aquariums, etc. Material is easily washed and long lasting. White algae pads will not scratch acrylic and plexiglass tanks. Blue algae pads are very coarse and will scratch acrylic surfaces; however, they are ideal for glass, polyethylene and hard surfaces.

LFETRWL	REPLACEMENT WHEELS FOR LFETR185	1 LB	6.11

VACUUM SYSTEM

The Muck-Vac vacuums muck, fish waste, etc., from ponds and fountains and discharges the waste water to a garden area or lawn, making an excellent fertilizer. Built with no moving parts, each system includes a Muck-Vac head vacuum, extendable (3' to 6') telescopic pole, waste hose (8½' long), garden hose adapter and brush. Requires a hose pressure of 50 psi to operate.

Replacement Wheels

COMMERCIAL VACUUM HEAD

This commercial-duty, chrome-plated, brass vacuum head is sure to shorten your cleaning time for raceways, fish tanks and ponds. Overall unit width is 12" with a suction width of 10½". It features a "Balanced Design" and a unique four-wheel suspension system using high-performance acetal resin wheels on height-adjusting eccentrics. The nonmarking wheels and the internal brush adjust to control the height and the amount of suction. Use any suction tubing (pond hose works best) with a 1½" I.D. and bolt it to a handle measuring 1¼" O.D. Made in USA.

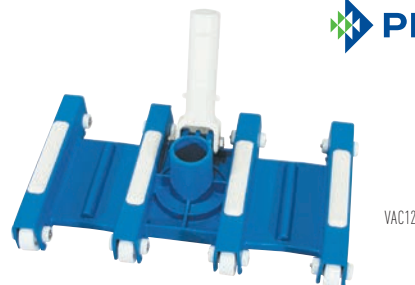

MODEL		EACH	4+
AV17	VACUUM HEAD	\$226.00	—

BH10	2 - 10' SNAP-ADAPT PVC POLE	1 1/4"	20.45	18.41

BRUSH WITH NYLON BRISTLES

These curved, heavy-duty brushes are ideal for cleaning tanks, ponds and raceways. Made of ABS plastic, they feature UV-resistant bristles and have Snap-Adapt handles to fit our poles (see above).

MODEL		SHIP WT (LBS)	EACH
BRSH18ABS	18" BRUSH	2	\$29.99

HEAVY-DUTY SCRUB PAD

This heavy-duty scrub pad is acrylic safe and mounted on a molded ABS back for tough cleaning. Swivel-joint handle keeps the pad flat on the surface regardless of the angle—great for hard-to-reach spots. Perfect for large tanks and public displays. Pad is 10" L x 4 1/2" W x 1" thick. Work with Snap-Adapt poles (see above).

MODEL		SHIP WT (LBS)	EACH
SCR-57	MULTIPURPOSE SCRUBBER	2	\$18.85

POND HOSE

This pond hose can be used for cleaning fish ponds and siphoning water, etc., because it will not collapse. Hose cuffs fit snugly on a 1 1/2" barbed fitting and swivel to prevent kinking. 1 1/2" diameter. Made in USA.

MODEL		EACH	4+
