TAURUS™ 110

ENERGY-EFFICIENT
AQUACULTURE PUMP

The Taurus 110 Energy-Efficient Pump is a product of more than 40 years of innovative hydraulic engineering. The result is an ability to move more water more efficiently for lower operating cost and super-quiet operation. Plus, by performing with less effort, there's simply less wear and tear—and that means longer life for a higher return on your pump investment.

The Taurus 110 pump meets all the criteria for a superior pump. It's super energy-efficient, super quiet and super easy to maintain. Plus, it's designed with innovative materials that will stand up to the most demanding installations and conditions. Whether you're choosing your first pump or replacing older technology, the Taurus 110 pump is definitely a super choice.

Performance and pressure tested to ensure superior quality. Self-priming for quick, easy start-up. 38 mm outside threaded BSP ports size. 1-phase and 3-phase models available.

UL778 listing for aquaculture. Not certified for use on swimming pools.
